

Protected, Not Disconnected

The Certified Anti-Radiation
Shield for Your Mobile Device

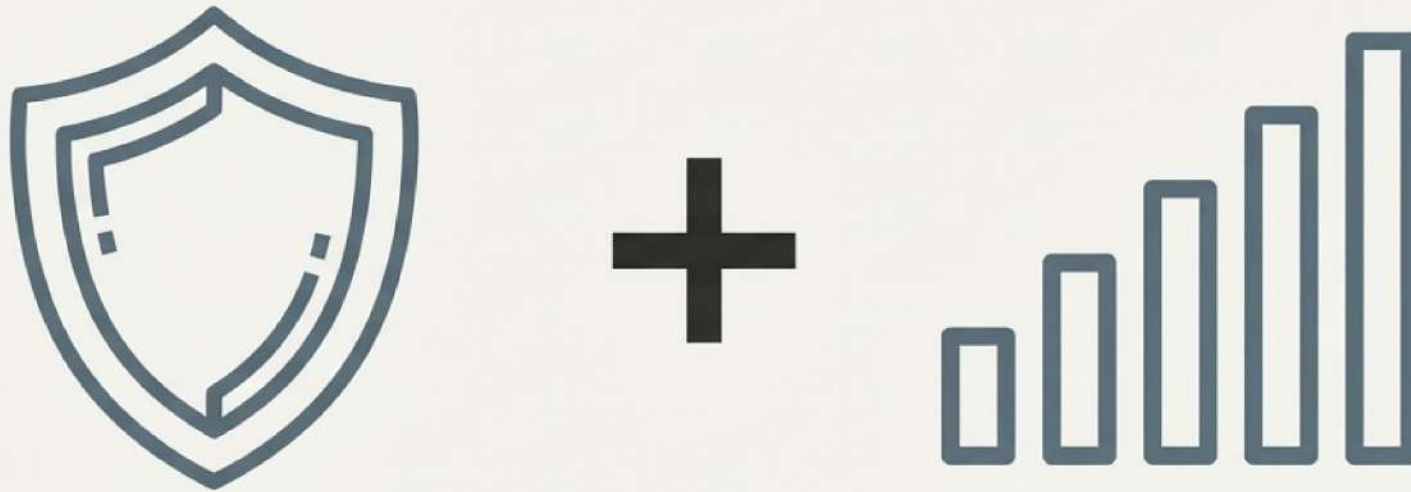

The Invisible Concern of Constant Connectivity

In our modern digital age, the mobile phone has become an indispensable extension of ourselves. Yet, with this constant proximity comes a growing concern about the invisible electromagnetic radiation these devices generate. Being informed about this continuous exposure is the first step toward taking proactive measures for your well-being.

The Challenge: Protection Without Compromise

How do you mitigate this exposure without affecting your phone's essential coverage or signal strength?

The core of the issue is simple: a real solution must provide a tangible barrier against emissions without interfering with the performance you rely on every day. The goal is protection that is both powerful and intelligent.

A Shield of Safety: The Anti-Radiation Protector

A specialized shielding sticker designed to reduce your cell phone's electromagnetic radiation by up to

98%

The Dual Promise: Protection Without Compromise

Powerful Radiation Reduction

Proven to reduce radiation by up to 98%, providing a tangible barrier between you and your device's emissions.

Zero Signal Interference

Critically, this significant reduction is achieved without affecting your phone's phone's coverage or signal strength, ensuring your device remains as functional as ever.

The Gold Standard of Trust: ITE Certification

When it comes to health and safety, independent certification is the ultimate assurance that a product performs exactly as promised. The shielding effect of this product is not just a claim; it has been rigorously tested and is officially certified by the Energy Technology Institute (ITE).

Essential Protection for Expecting Mothers

This shield is especially recommended for pregnant women. Its primary application is to help protect the developing fetus from the potentially harmful effects of electromagnetic radiation, providing an essential layer of safety during a crucial time, allowing for the continued use of mobile devices with greater confidence.

Elegant by Design. Practical for Life.

The best safety technology integrates seamlessly into your daily life. With a bright, gold appearance, the protector is a premium, functional accessory. Its elegant and practical design is ideal for daily use in any situation, complementing your device.

Effortless Application in 3 Simple Steps

1. PEEL

Peel off the tape on the back of the radiation shield.

2. STICK

Stick the anti-radiation shield firmly onto your mobile phone case.

3. TRIM

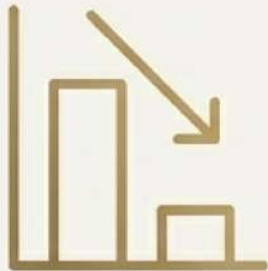

For a perfect fit, carefully trim off any excess shield material.

The Technical Blueprint

	SPECIFICATION	DETAIL
	Product Type	Anti-Radiation Sticker
	Compatibility	Foldable mobile covers
	Dimensions	9.5 cm x 16 cm
	Color	Gold
	Appearance	Bright

Your Shield of Confidence: The Complete Solution

1. Proven Effectiveness

Up to 98% radiation reduction without compromising coverage. A powerful and persuasive claim.

2. Certified Trust

Shielding effect tested and certified by the Energy Technology Institute (ITE), overcoming consumer skepticism.

3. Seamless Integration

An elegant, gold sticker that is simple to apply to your existing foldable mobile case.
